Quality ABA Professionals

As you all know, U.S. Covid cases hit their highest level during the month of December. Unfortunately, we had a couple of therapists who tested positive for Covid-19. Once confronted with the news, all appropriate measures were taken and we are proud to report that all children that came in contact with a therapist who tested positive came back negative for Covid-19. This means that our safety procedures are working and effectively preventing the spread of covid-19 in our center. We are also very happy to announce that all of our staff members are healthy and have returned back to providing services.

With that being said, none of that stopped us from safely celebrating the Holiday season! We loved seeing our kiddos dress up and participate in our annual Winter Wonderland Spirit Week. Furthermore, we hope that everyone had a wonderful holiday season, filled with fun and laughter, and we wish you and your loved ones a prosperous new year!

BI Superstar of the Month

Paulina B.

Paulina has made major strides since beginning our

day program a year ago. She has learned to work in groups and share with peers. She is able to call the therapists by their names in order to gain attention. She is now manding for preferred items and activities and is able to sit for long periods of time while working one on one with her therapist. Paulina is responding chorally in group floor time during the day program. When Paulina first arrived, she would not respond when spoken to, she is now responding more often than not when therapists and peers speak to her. She has also improved tremendously at writing. She is now able to trace lines and some letters. Paulina is now potty trained. Within the first few months of starting the day program she was not only potty trained she also learned to verbally request to use the restroom. Paulina is a rockstar!

ATTENTION PARENTS!
