

We hope you all had a wonderful and safe Thanksgiving Holiday. We are eternally grateful for our extended BI Family, and we thank you for trusting us with your kiddos. It brings us great joy to be a part of helping your kiddos grow and succeed. We as well want to give a special heartfelt thanks to our BI Parents for planning and surprising our staff with such a lovely staff Breakfast and Lunch this past month.

With the Holidays fast approaching and COVID-19 surging in most parts of the country, we wanted to keep our families and staff up-to-date with our new policies and practices. These policies and practices are intended to minimize the spread of COVID-19 during in-person services. For the safety of our team members, kiddos and their families, we are requiring all staff that travel by plane this month to provide a negative test before returning work. As well, we have increased the amount of times in a week our cleaning team comes to disinfect our center. Other policies that have been and will continue to be implemented are: temperature checks, social distancing, washing hands frequently, and mask wearing!

BI SUPERSTARS OF THE MONTH

Camila Corredor

Camila has made amazing strides in making eye contact and following specific instructions. She has made major improvements on her attention while sitting and working as well as transitioning from one place/activity to another. Camila has done an excellent job accepting being told no without having an alternative offered. She is requesting activities without them being in sight and wears her mask at all times when she is playing social activities with other children. When Camila first started she would not eat non-preferred foods, she is now eating everything her family has packed in her lunch bag. Lastly, Camila is

manding for information from others independently such as "how are you?".

Asiah Smith

Once we resumed in person group instruction, Asiah seamlessly transitioned. She has made great strides in participating during calendar time and has recently began identifying and labeling the seasons and days. Asiah is a superstar at requesting her wants and needs. Using her device she will go to different people, get their attention and identify the things that she wants. We're so proud of the progress that she keeps making daily!

HAPPY
HOLIDAYS
